

Tuesday 12th May

**CIRCULAR TO SHAREHOLDERS, CLERKS, STAFF &
TENANTS - WARNING WHOOPING COUGH
OUTBREAK IN WENTWORTH, SELBORNE &
LOCKHART CHAMBERS**

Further to my email of this morning, subsequently CCL has been notified of two further cases of whooping cough, one of which is in Lockhart Chambers.

To assist members, CCL has arranged for a GP to be on site in the Board Room on Level 1, Selborne Chambers on Friday, 15 May 2009 between 4.30 pm to 6.00pm to administer the whooping cough vaccine. Details are below:

Dr. Erwin Light
580 George Street,
SYDNEY
Ph: 9261-9200

Dr. Light has agreed to bulk bill individuals for the consultation but members & staff wishing to use this service will need to pay for the vaccine which will cost \$90 payable at the time of the consultation directly to Dr. Light. I understand that people caring for young children may be entitled to receive the vaccine free of charge but this is a matter that should be discussed with the doctor at the time of consultation.

There are limited appointments available and we must notify Dr. Light by mid-day tomorrow of the number of patients that will require the vaccine. If you would like an appointment on Friday afternoon can you please advise CCL as soon as possible by emailing rsvp@counselchambers.com.au. Please note that there are limited appointment times available on Friday but based on demand, an alternate time on Monday between 11 am & 12.30 pm has also been proposed but we will not confirm this appointment time until we gauge demand for this service.

To avoid delays on Friday, we will advise you of an approximate appointment time once we have confirmed numbers with the doctor.

Dr. Light was recommended to CCL by one of the Floors in Wentworth Chambers who have had an outbreak of the disease on their floor, he also operates his practice in George Street so members who might not want to wait until Friday can also make appointments directly with his office – contact details above.

This service is available to all Shareholder, staff and tenants.

Regards,

Debbie George
